

Adele Miller

In March 2012 we were shocked and saddened to learn of the sudden death of our dear friend and valued member, Adele Miller.

Adele was an extremely enthusiastic founder member of Thames Valley Homeopaths. She was passionate about homeopathy and proud to be part of a new group of local professional homeopaths, to spread the word about homeopathy and to have companionship with like-minded friends.

Adele had been a practising Homeopath since 1996 and achieved Registration with The Society of Homeopaths in 1997. She had set up a Complementary Clinic in Maidenhead with two colleagues as well as working from a G.P. practice near Henley on Thames and a chiropractic clinic in Windsor.

Adele had a wide range of experience, having treated people with problems ranging from emotional ones to long standing physical complaints. Her background included teaching Sciences in senior schools and it was likely that this fuelled her special interest in treating children with learning and behavioral problems such as ADD, ADHD, Asperger's etc.

Many patients reported Adele to be a wonderful homeopath who took the time to get to know them and they found her extremely approachable and perceptive.

Adele kept abreast of new developments within homeopathy and was a keen member of a local Research group within the Society of Homeopaths.

Before Adele's untimely death she had done a sterling job as our group secretary and we miss her organisational skills, her chirpy manner and her enthusiasm. She may have left this world but we still feel her spirit is with us.
